BCom Program-Level PLO Assessment Rubric

Purpose

The following rubric is designed to assess achievement of the six revised BCom Program Learning Outcomes (PLOs) at the program level. The rubric is applied to a sample of selected program-level assessment evidence rather than to every course individually. Each PLO is divided into three dimensions that are assessed at three broad performance levels reflecting progressive achievement of the expectations for a BCom graduate. This rubric represents a proposed approach for assessing PLO achievement and will be further refined through COP discussion and implementation experience.

Performance Levels

Level	Description
1 – Developing	Indicates partial, inconsistent, or insufficient achievement of the PLO. Evidence indicates gaps in the knowledge, skills, application, or performance expected at the program level.
2 – Meets Expectations	Demonstrates the knowledge, skills, and application expected of a BCom graduate. Performance is appropriate, consistent, and supported by relevant evidence.
3 – Exceeds Expectations	Demonstrates achievement beyond the expected program standard through greater depth, integration, independence, sophistication, and/or effectiveness.

PLO 1

Apply contemporary business methods and analytical tools to organizational challenges.

Dimension	1 – Developing	2 – Meets Expectations	3 – Exceeds Expectations
1.1 Select Appropriate Business Methods and Analytical Tools	Selects methods or analytical tools that are inappropriate or poorly matched to the organizational challenge and requires substantial guidance.	Selects appropriate and relevant business methods and analytical tools that address the organizational challenge.	Selects the most appropriate business methods and analytical tools for the organizational challenge and justifies the selection using relevant criteria.
1.2 Apply Methods and Analytical Tools	Applies methods or tools inaccurately, incompletely, or	Applies appropriate methods and tools correctly to address the	Applies methods and tools to the organizational context, explains the

	without sufficient connection to the challenge.	organizational challenge.	rationale for key adaptations, and applies them accurately to the challenge.
1.3 Interpret Results and Develop Recommendations	Misinterprets results or provides recommendations that are unclear, inappropriate, or insufficiently supported.	Interprets results appropriately and uses them to develop relevant recommendations.	Integrates analytical results from the relevant evidence to develop well-supported recommendations that address the organizational challenge and its implications.

PLO 2

Evaluate complex business problems through critical, logical, and evidence-based reasoning.

Dimension	**1 – Developing**	**2 – Meets Expectations**	**3 – Exceeds Expectations**
2.1 Analyze Business Problems	Provides limited, incomplete, or inaccurate analysis of the business problem.	Identifies and analyzes relevant factors associated with the business problem.	Identifies and analyzes relevant aspects of the business problem, including relationships, assumptions, and implications, and explains how they affect the analysis.
2.2 Evaluate Evidence and Alternatives	Uses insufficient or inappropriate evidence or provides no consideration of alternatives.	Evaluates relevant evidence using appropriate criteria and considers alternative explanations or solutions.	Evaluates the quality and relevance of evidence using explicit criteria, weighs alternative explanations or solutions, and explains the implications of the comparison.
2.3 Develop Evidence-Based Conclusions	Conclusions are unclear, illogical, or insufficiently supported by evidence.	Develops logical conclusions supported by relevant evidence.	Develops logical, well-supported conclusions that integrate evidence and address the complexity of the problem.

PLO 3

Describe business decisions and practices through ethical, legal, and social responsibility frameworks.

Dimension	1 – Developing	2 – Meets Expectations	3 – Exceeds Expectations
3.1 Identify Ethical, Legal, and Social Responsibility Considerations	Fails to identify significant considerations or demonstrates limited understanding of their relevance.	Identifies relevant ethical, legal, and social responsibility considerations.	Identifies and analyzes multiple relevant ethical, legal, and social responsibility considerations and explains their implications.
3.2 Apply Relevant Frameworks to Business Decisions	Applies frameworks inaccurately, superficially, or without sufficient connection to the decision or practice.	Applies relevant frameworks appropriately to the business decision or practice.	Integrates relevant ethical, legal, and social responsibility frameworks and analyzes how they apply to the business decision or practice.
3.3 Explain Implications of Business Decisions and Practices	Provides limited, unclear, or unsupported explanation of the implications.	Describes relevant implications of business decisions and practices.	Clearly explains the potential consequences and competing considerations associated with business decisions and practices.

PLO 4

Communicate business information and arguments across written, oral, and digital formats.

Dimension	1 – Developing	2 – Meets Expectations	3 – Exceeds Expectations
4.1 Organize Business Information and Arguments	. Communicates information with gaps in organization, relevance, or logical sequencing.	Organizes business information and arguments logically and coherently.	Uses a deliberate structure that prioritizes key information, establishes clear relationships among ideas, and strengthens the intended message.
4.2 Communicate Clearly and Persuasively	Claims or recommendations are insufficiently supported	Communicates ideas clearly using	**Communicates ideas clearly and persuasively using appropriate**

	by evidence and reasoning.	appropriate evidence and reasoning.	**evidence, reasoning, and language use**
4.3 Adapt Communication Across Formats and Audiences	Provides limited evidence of adapting communication to the audience or format.	Uses an appropriate communication for the audience and format.	**Effectively adapts content, tone, evidence, and presentation to different audiences and written, oral, or digital formats.**

PLO 5

Explain the role of technology in business decisions and organizational performance.

Dimension	1 – Developing	2 – Meets Expectations	3 – Exceeds Expectations
5.1 Identify the Role of Technology in Business	Provides limited or inaccurate explanation of technology's role in business.	Explains relevant ways technology influences business decisions or organizational performance.	**Analyzes multiple ways relevant technologies influence business decisions, processes, or organizational performance and connects those influences to the business context.**
5.2 Evaluate Technology-Related Business Implications	Provides limited or unsupported evaluation of technology-related implications.	Identifies and evaluates relevant benefits, limitations, risks, or opportunities.	**Evaluates technology-related benefits, limitations, risks, and/or opportunities using relevant criteria and explains their implications for the business context.**
5.3 Apply Technology Insights to Business Decisions	Provides limited or unclear connection between technology and the business decision or recommendation.	Connects technology-related considerations to an appropriate business decision or recommendation.	**Integrates technology-related evidence into business decisions or recommendations, explains relevant trade-offs, and supports the proposed course of action with evidence.**

PLO 6

Collaborate in diverse teams with leadership adaptability and interpersonal competence.

Dimension	1 – Developing	2 – Meets Expectations	3 – Exceeds Expectations
6.1 Contribute to Team Objectives	Makes limited contributions, does not consistently fulfill responsibilities, or negatively affects team progress.	Fulfills assigned responsibilities and makes appropriate contributions to team objectives.	**Takes initiative beyond assigned responsibilities when needed, contributes resources or support that advance team progress, and helps others fulfill team objectives.**
6.2 Collaborate Across Diverse Perspectives	Provides limited evidence of considering or incorporating different perspectives.	Recognizes and appropriately considers different perspectives when presented by team members.	**Seeks out and incorporates different perspectives into team discussions, decisions, and outcomes.**
6.3 Demonstrate Leadership Adaptability and Interpersonal Competence	Demonstrates limited adaptability or interpersonal effectiveness, affecting team communication or performance.	Adjusts appropriately to team roles and circumstances and communicates constructively with team members.	**Adapts leadership and interpersonal approaches effectively to changing team needs, roles, and circumstances while supporting productive team relationships.**
